

Mosaic Global Fund on Life Platforms

Starting from January of 2011 Cardea International's Mosaic Global Fund is available on the Royal Skandia, Friends Provident and Royal London 360 life platforms. "This is a strong confirmation that we are a solid and properly regulated proposition for IFA's," says the CEO and founder of Cardea International Per-Olov Jansson.

The Mosaic Global Fund was set up primarily for the IFA market, where we feel there is a huge need among advisors to be able to actively manage client's assets with a disciplined and active approach. As well the access to global asset managers across different asset classes is a unique selling point, offering managers not normally accessible to affluent investors.

"We will be able to protect the downside of an investor's asset base but still produce an attractive return in a much better way than with a very limited stock and bond portfolio", continues Mr Jansson. This is something that comes up over and over in discussions with advisors - how will you protect assets in case we have another difficult year or two in the markets.

We are looking forward to speaking with more IFA's about our proposition during 2011 and we have already had a lot of traction in the European market and also in the Middle East.
